Sample Information

Sample Name: USB A To Micro USB B
Sample No.: WBZ110402-0407-1~5 (31#~35#)
WBZ110402-0407-6~10(36#~40#)
WBZ110402-0407-11~15(41#~45#)
Sample Model: /
Sample Quantity: 15PCS
Sample size: L=1m
Sample weight: 25.69g/pcs
Sample Description: Normal

Test Information

Test Items: Mechanical Shock, Random Vibration, Thermal Shock
Receive Day: /
Testing Day: /
Test Environment: /
Preconditioning: /

Test Result

Test samples	Pass/Fail criteria	Observation result	Conclusion
31#~35#	No discontinuities of lus or longer	Meet the requirement	Pass
36#~40#	No discontinuities of lus or longer	Meet the requirement	Pass
41#~45#	Cable jacket will not get damaged or broken.	Meet the requirement	Pass

This test report is governed and issued by the TTS company subjected to its general conditions of service. TTS guarantees the scientificity, fairness and accuracy of all testing, is responsible for the testing data and keeps the confidentiality of the sample(s) and technical information provided by the clients. The result shown in this test is only to the sample(s) identified herein. Any report without authorized, checked signature, nor the special testing seal of the company, will be taken as being of no effect. This test report cannot be copied nor reproduced, except in full, without prior written permission of the company. Any unauthorized alteration or falsification of the content or appearance of this report is unlawful and the offenders may be prosecuted to the fullest extent of the law.

Test Item 1: Mechanical Shock

1. Test Standard: Client-user defined
2. Test Equipment:

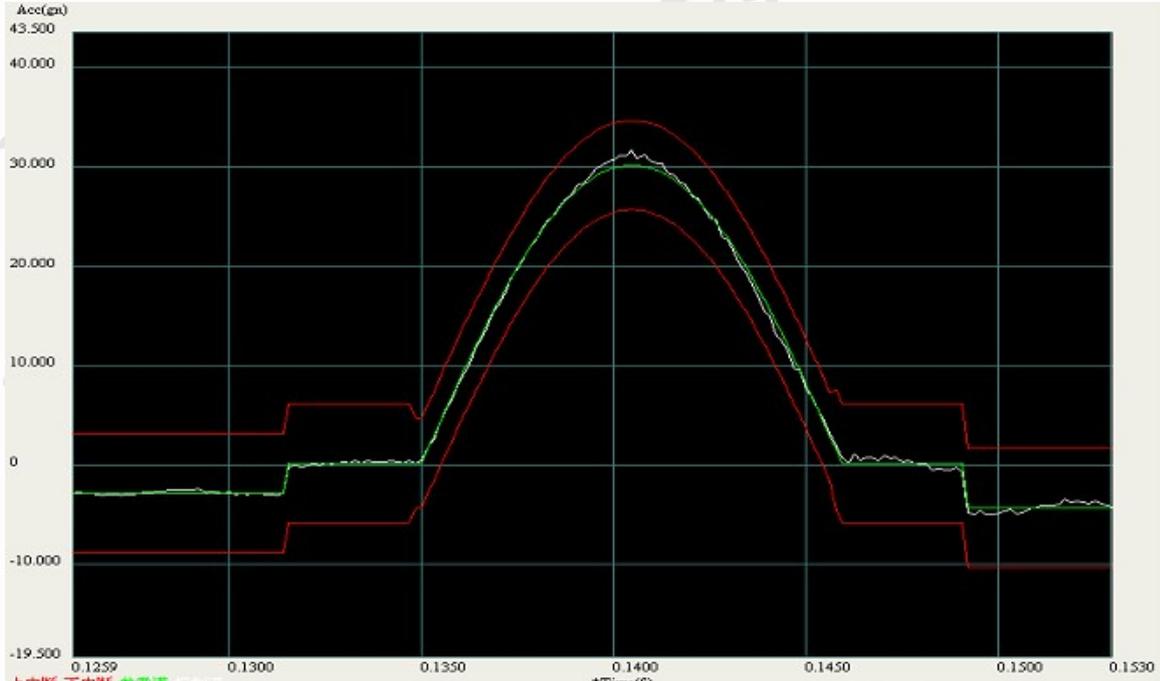

Equipment Name	Equipment Model	Equipment NO.	Calibration Useful-life
Vibration system	EM-600F2K-40N120	TTS-YQ-058	Feb 13, 2012
Transient fault instrument	10A	TTS-YQ-077	Dec 14, 2011

3. Remark:

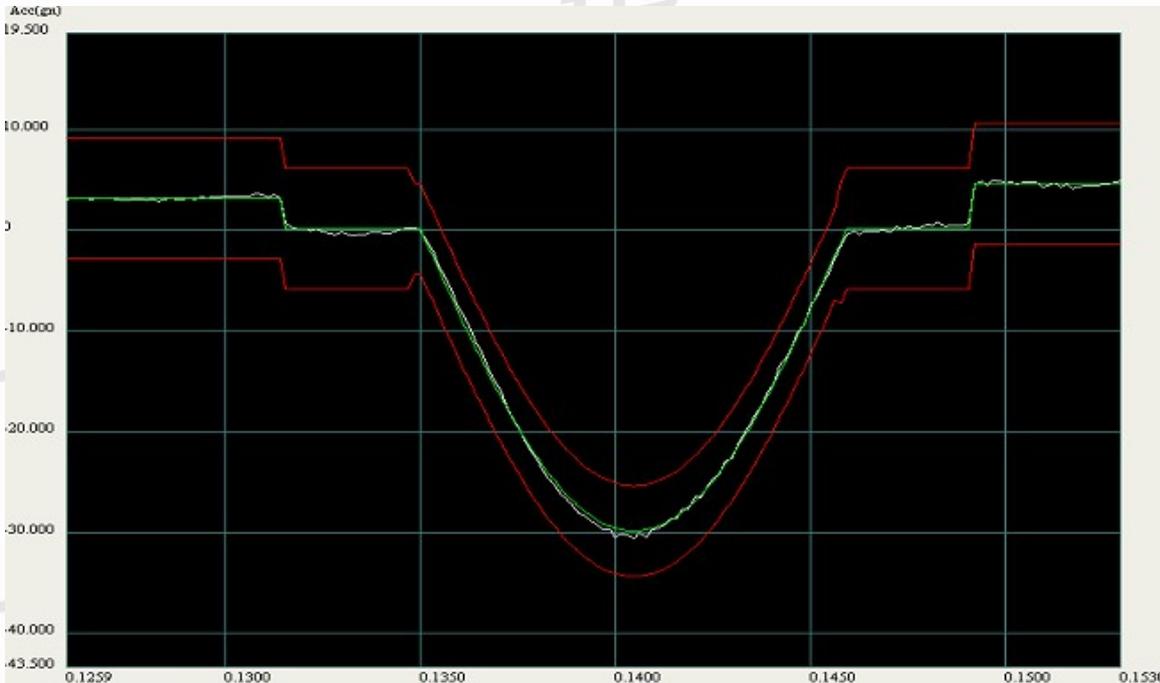

- (1) Switch the samples(31#~35#) in the Transient fault instrument, fix them on the tester, the test condition is as the bellow:
Shock wave shape: 1/2 sine
Peak G level: 30g
Shock pulse: 11ms
Shock orientation: $\pm X$, $\pm Y$, $\pm Z$ axes
Shock times: 3 times on each direction
- (2) The followings are the shock curves:

Test Item 2: Random Vibration

1. Test Standard: Client-user defined
2. Test Equipment:

Equipment Name	Equipment Model	Equipment NO.	Calibration Useful-life
Vibration system	EM-600F2K-40N120	TTS-YQ-058	Feb 13, 2012
Transient fault instrument	10A	TTS-YQ-077	Dec 14, 2011

3. Remark:

- (1) Switch the samples(36#~40#) in the Transient fault instrument, fix them on the vibration tester, the test condition is as the bellow:

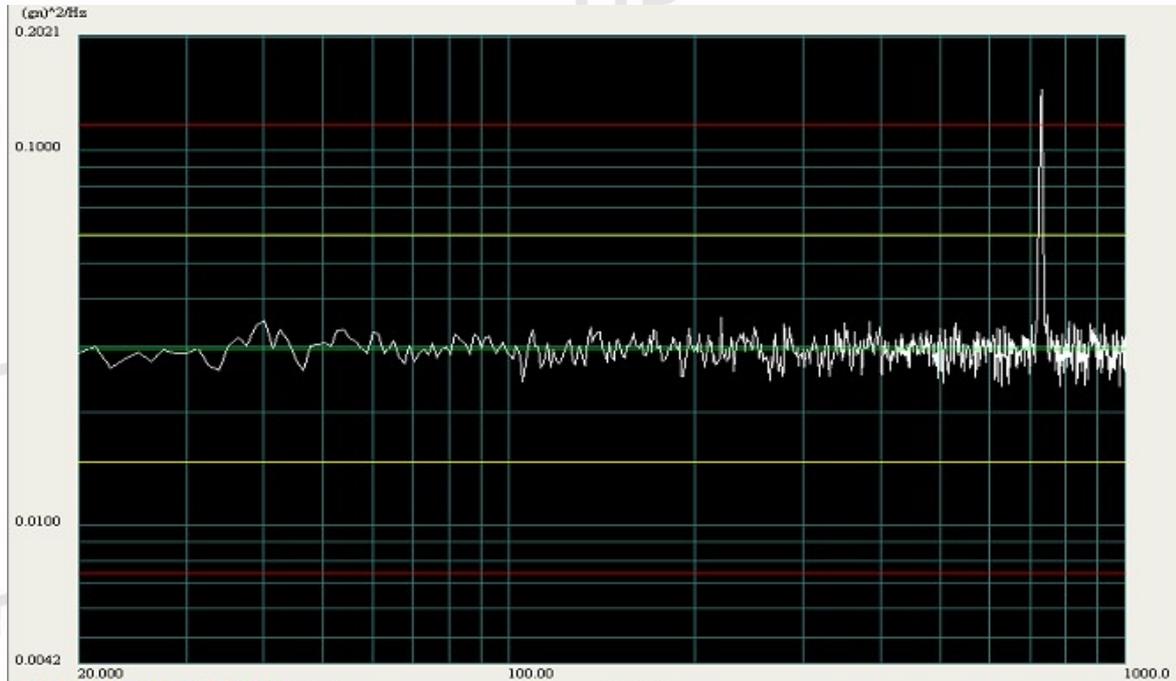

Vibration range: 20~1000Hz

Grms: 5.35G

Vibration orientation: X, Y, Z axes

Vibration times: 15min on each axis

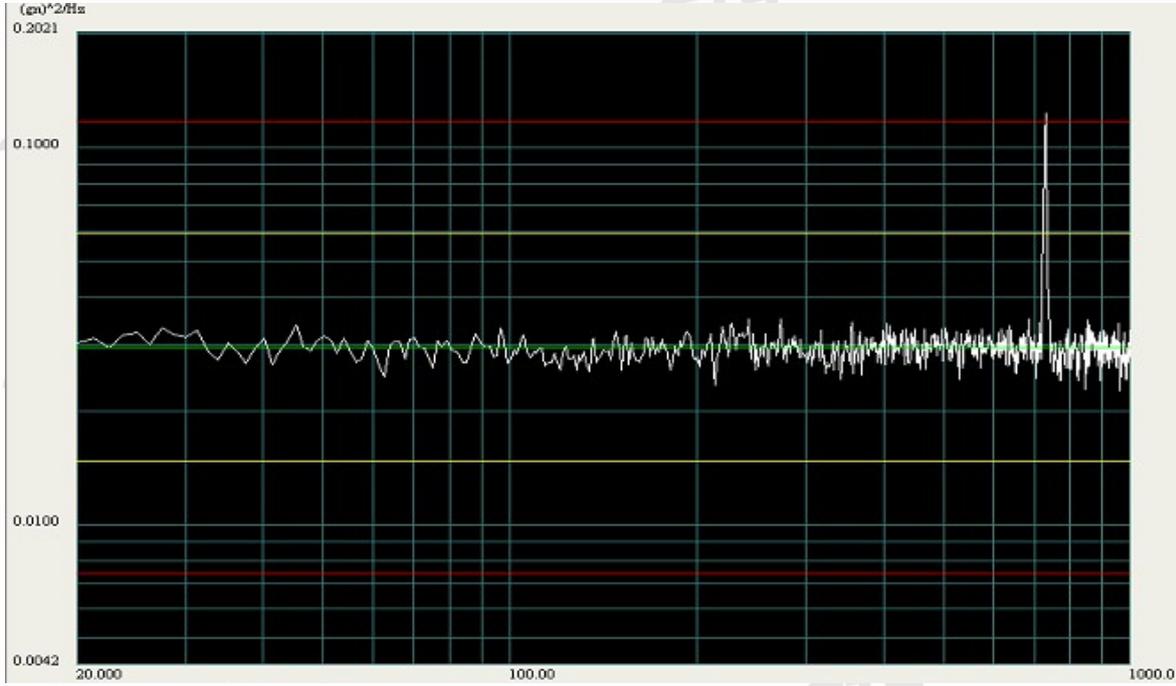

- (2) The followings are the vibration curves:

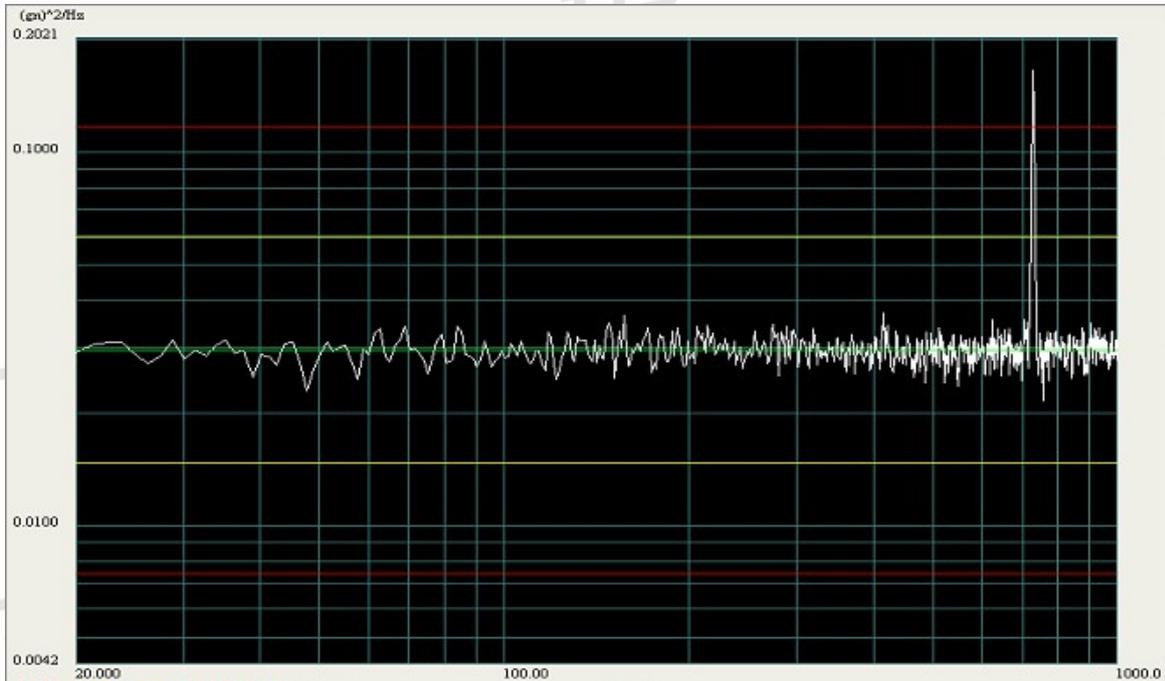

X axis vibration curve

This test report is prepared and issued by the TTS company subjected to its general conditions of service. TTS guarantees the scientificity, fairness and accuracy of the testing data and keeps the confidentiality of the sample(s) and technical information provided by the clients. The result shown in this test is only to the sample(s) identified herein. Any report without authorized, checked signature, nor the special testing seal of the company, will be taken as being of no effect. Test Item 3: Thermal Shock

1. Test Standard: Client-user defined
2. Test Equipment:

Equipment Name	Equipment Model	Equipment NO.	Calibration Useful-life
Thermal shock chamber	TSK-BIIIC-150	/	Apr 20, 2011

3. Remark:

- (1) Place the samples(41#~45#) into the Chamber, the condition is as below:
Low temperature: -55°C
High temperature: 80°C
Dwell time: 30min
Cycle number: 10
- (2) The following is the Thermal Shock curve:

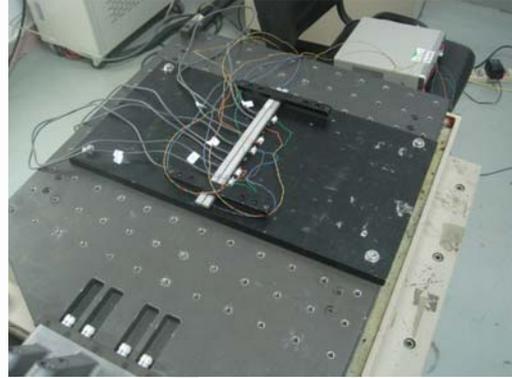

This test report is prepared and issued by the TTS company subjected to its general conditions of service. TTS guarantees the scientificity, fairness and accuracy of the testing data, is responsible for the testing data and keeps the confidentiality of the sample(s) and technical information provided by the clients. The result shown in this test is only to the sample(s) identified herein. Any report without authorized, checked signature, nor the special testing seal of the company, will be taken as being of no effect. This test report cannot be copied nor reproduced, except in full, without prior written permission of the company.
